Printing on backpack

Generally, all chemical protective clothing already has standard Dräger markings, including the Dräger logo. However, we also offer the option of additional marking according to your wishes.

Marking. We recommend markings only for suits that are made of the materials VITON®/Butyl, HIMEX®, Symex, and Umex, because these are the only materials on which a long-lasting marking can be printed. On other materials the surface is so smooth that the marking remains legible for only a limited time.

The marking should be done at the time of the order. Marking at a later time will mean additional costs and longer delivery times.

Especially with the Team-Master series, we recommend additional marking on the outside of the backpack that protects the breathing apparatus, e.g. compressed air breathing apparatus, on the inside. This marking should be repeated on the right arm,

so that, especially in case of radio contact, it is possible to identify personnel clearly.

Printing position. For each type of protective clothing, Table 2 shows the possible position for the printing in relation to the available space for letters, numbers or logos. Due to seams, other symbols, or equipment parts, other positions on the chemical protective suit (CPS) are not possible.

Dräger CSP Marking — a Service of Dräger Safety.

VITON® is a registered trademark of DUPONT DOW ELASTOMERS

HIMEX® is a registered trademark of Drägerwerk AG, Lübeck

DESCRIPTION OF THE MARKINGS

Description	Order-Code
Marking:	19 12 011
	Up to 4 characters can be printed. With 5 or more characters a print template is created.
	This template and the print have to be ordered together.
Printing colours:	The following printing colours are available:
	White
	Black
	Orange
	Blue
Characters:	The following letters and numbers are available:
	1 2 3 4 5 6 7 8 9 0
	A B C D E F G H I J K L M N O P Q R S T U V W X Y Z -
	Umlauts will be printed as follows: for example, Ä will be AE. Other characters are not available at the moment.
Logos:	A Logo is a trade name/trademark or a proprietary combination of letters/numbers and can be printed only if the customer provides a template in original size at no cost.
	Logos will be printed in one colour only in one of the print colours listed above.
	The available space and place for logos is shown in Table 2.
Size of letters/ numbers:	The position on the chemical protective suit (CPS) determines the size of the letters/numbers.
	Table 1 shows the quantity of letters/numbers that can be used in relation to the size and position on the CPS.

TABLE 1: QUANTITY AND SIZE OF NUMBERS AND LETTERS

Position on the CPS	Quantity of number- [N] and letter size [L]					
	N = 60 mm	L = 60 mm	N = 125 mm	L = 125 mm	N = 150 mm	L = 300 mm
Lower right sleeve	3	3	2	2	-	-
Upper right sleeve	3	3	2	2	1	-
Thigh, righth	4	4	2	2	1	-
Thigh, left	4	4	2	2	1	-
Chest, right	3	3	2	2	1	-
Chest, left	2	2	1	1	1	-
Backpack	4	4	4	4	3	2

TABLE 2: PRINTING POSITION

Type of CPS	Print Position	Printable Area	
		Width [mm]	Hight [mm]
WorkMaster - Series	Upper right sleeve	150	150
	Lower right sleeve	150	125
	Thigh, left (below Dräger label)	200	200
	Chest	No print possible	No print possible
	Backpack	No print possible	No print possible
TeamMaster - Series	Upper right sleeve	150	150
	Lower right sleeve	150	125
	Thigh, left (below Dräger label)	200	200
	Chest, left (TM pro-ET below the chest)	150	300
	Backpack	350	350
AirStar C and PF	Lower right sleeve	150	125
	Thigh, left	200	200
	Chest, right	200	200
	Backpack	No print possible	No print possible

We reserve the right to make changes in character size and position.
